

DALLAS INDEPENDENT SCHOOL DISTRICT

Projects included replacing MEP infrastructure (chillers, boilers, pumps, AHUs, VAV boxes, controls, electrical switchgear and electrical distribution) for multiple DISD bond packages. We have also partnered with several clients to provide MEP renovations and additions.

Since we have worked on so many K-12 campuses, we are familiar with the IBC's requirement for storm shelters, and have designed several of those as well.

- Atwell Academy
- Holmes Academy
- Bryan Elementary School
- Bushman Elementary School
- Central Elementary Renovation/Addition
